## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claim 1-17 & 19 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding Claims 1, 10, & 13, the prior art does not teach or suggest a nightlight wherein motor shaft protrudes through the front side of the casing or nightlight proximate to the illuminating area.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Song (US Pat 6,449,887) cited in the previous office action was further considered and discloses a nightlight with a motor inside of a casing with a drive shaft, but fails to teach or suggest the drive shaft as protruding the front side of the casing and fails to disclose an aperture on the front side of the casing with a light bulb providing illumination through the aperture.
